T-Fold is part of the FOLD acoustical ceiling tile collection. The product ships flat and magically folds into a three-dimensional tile on site—channel your inner child and think pop-up book. The material and shape provide both effective acoustics and pleasing aesthetics.

Drop the tiles into any 9/16" or 15/16" tee-grid. Simply by changing their orientation in the grid, you can create an unlimited variety of patterns.

Installation / Maintenance

Configure each tile according to the illustrations below. Insert the finished tiles into the tee grid.

To remove dust or air-born particulate matter, simply vacuum the tiles or use compressed air. For deeper cleaning of stains, use a clean cloth or sponge with a non-solvent base solution of carpet shampoo always making sure to folllow the manufacturer's instructions. Starting from the outside of the stain work in a circular motion towards the center which should avoid spreading the stain. Afterwards, use a clean sponge or cloth with clean warm water to remove excess moisture. Allow to dry, then brush the area gently with a soft brush if needed.
